Haymarket - Public Comment Form - Submission #1313

Date Submitted: 10/28/2020

Public Comment Form for Haymarket Proposal

Due to state mandates limiting the size of gatherings, the Plan Commission has implemented new procedures (which are available below) for conducting large scale public hearings remotely. Moving forward those wishing to actively participate in the hearing, may do so through advance sign-up. There is no need to resubmit questions, once you have completed the form. Requests will be processed in the order received.

Additionally, in order to streamline the process and ensure all information is heard, the entirety of the case will be heard before questions from the general public are accepted. Only Plan Commissioners and established interested parties will be able to question a witness directly after testimony.

What is the difference between questioning and public comment at a public hearing?

During questioning, the public is provided an opportunity to ask the petitioner and/or the other parties involved, direct questions about the information they presented. Public Comment is reserved as a time for the public to express their opinions or make general statements to the commission regarding the matter. In both circumstances, questions/comments should be addressed to the chairman.

I want to participate in the meeting by:*

- Asking a Question - Written
- Asking a Question - Over the Phone
- Providing Public Comment - Written
- Providing Public Comment - Over the Phone
- Attending in person - Not available under Tier 1 Mitigation Efforts

Please choose 1 (one) submission method. Example: Either choose to submit a written question or choose to ask question over the phone. Do not select both, as only method may be honored. Since providing public comment is separate from asking a question, you may elect to submit both a question and comment on the same form.

If approved to be present at Village Hall, do you intend to ask a question or provide public comment?*

- Yes
- No
- Unsure

Are you an Interested Party?*

- Yes
- No

An "interested party" is a party that has an interest with extends beyond that of the general public and is entitled to protections by judicial relief. Interested parties fall into three categories: (1) any property owner adjacent to the subject property; (2) any property owner within 250-feet of the subject property ; or (3) any individual or entity who can demonstrate that it will suffer a unique injury or special damages different from the general public. A party's status as a taxpayer alone is insufficient to qualify as an interested party.

Have you applied to become an interested party?*

- Yes
- No

Individuals or entities must apply to be recognized by the Plan Commission as an "interested party." Written applications must be submitted by October 23, 2020. Applications will be made public and disclosed to all other parties. No late applications will be accepted.

To become classified as an "interested party", please complete the below applicaiton

[Click here for Interested Party application](#)

Will you be referencing any documents during your questioning*

- Yes
- No

Who would you like to direct your question to?

- Petitioner
- Village Plan Commission
- Specific Witness

While your preference will be considered, the party to whom the question is posed to, will determine which witness or representative is best suited to answer the question.

Specific Witness*

Please submit your written question(s) here*

To Petitioner-

In order to understand what benefit Haymarket might bring to itasca businesses, I'm curious what the process is to determine what vendors or suppliers Haymarket will use? Things like Food, toiletries, supplies, sheets/towels, contractors etc. Is there any preference given to itasca businesses?

With the statistic of DuPage having 54,000 residents needing care, do you feel like this facility will be able to handle the care for ALL these DuPage individuals? If not, then why open treatment to collar counties? Why not just limit the facility to DuPage residents since there are plenty of folks just in DuPage that need care?

If there are not enough facilities to provide care for this epidemic, why is the Chicago facility not at 100%?

To plan commission -

Is there recourse of any kind to the residents of itasca if haymarket changes their "vision" or any of their intentions for the facility that they've stated during this hearing that do not fall under the restrictions of zoning? For example, if they change their programs to accept sexual offenders or they decide to accept mothers with young children, etc.

Is it accurate to say that anything presented in these hearings as part of Haymarkets "plan" for the intention of the facility programs can quickly and easily change the day after they get approval? Yes or no?

The public is encouraged to submit written questions in advance of the public hearing in lieu of live questions. The deadline for submission is 2 hours before the meeting. Written questions received will be read into the record by staff at the appropriate point in the public hearing. You may also upload your questions using the button below.

Please write your comments here*

Written comments must be submitted 2 hours before the meeting. Comments will be read into the record by staff at the appropriate point in the public hearing. You may also upload your questions using the button below.

Do you have any additional documents to accompany your comment?*

- Yes
- No

File Upload for Questioning

No file chosen

Special note on documents used in questioning: Any documents that will be used during questioning must be provided 5 to 7 days prior to the meeting. Documents submitted later than this will not be permitted.

File Upload for Public Comment

No file chosen

Audio Recording*

- I understand and agree that my phone call will be recorded. Further I understand that if I miss the Village's call, I will lose my place in line and need to resubmit my request.

Request to be physically present is not guaranteed*

- I understand my request to be physically present at the meeting may not be feasible

Requests to be physically present at the meeting, will be handled on a first come, first serve basis, with priority going to parties classified as "interested parties." Due to restrictions on gatherings, not all requests will be accommodated. Individuals who are approved to attend the meeting in-person, will receive a separate confirmation email.

Participant Responsibilities*

- I have read the Plan Commission Hearing Protocols During COVID for Larger Hearings

I have read the Public Hearing Protocols and understand public participation may not be available on the day I select. It will be my responsibility to follow the hearing and make myself available on the appropriate day that participation is allowed.

MODE OF PARTICIPATION

Members of the public wishing to participate in the hearing are encouraged to sign-up in advance no later than the Sunday before the meeting they intend to speak at. Individuals who pre-register will be given priority to ask questions and/or provide public comment at the appropriate time.

What is the difference between public questions and public comment?

During Public Questions, individuals are provided an opportunity to ask a question about direct testimony that was provided by a witness or about documents submitted. Individuals should be prepared to reference a specific portion of the transcript by page number and/or a specific document page number at the beginning of the question. A link to all of the submitted documents can be found below. Questions will be directed to the Plan Commission Chairperson who will determine whether the question is relevant to the Plan Commission's deliberations. If so, the Chairperson will instruct the witness or petitioner to answer the question.

During Public Comment, the public is free to express opinions or make general statements to the Plan Commission regarding witness statements, documents or the matter in general.

Any person asking a question or providing a comment must do so under oath and may be subject to cross-examination by the petitioner or interested parties.

Select the specific people you will be directing questions to.

- Luay Aboona, KLOA Inc
- George Kisiel, Okrent Kisiel Associates, Inc.
- Kenneth Polach, Polach Appraisal Group Inc.

Please submit your written question(s) here*

Dr Lustig stated the Itasca facility would nit offer service for / mother child . Is that a permanent decision or can u change that anytime in the future?

Also a statement . Haymarket Chicago location counselors are offering patients the option to transfer to the Itasca facility . That's a fact . Would these potential patients only be from Dupage county ? Or can this facility actually have more cook county residents?

Haymarket staff is also offering jobs to patients with counseling experience. How can jobs and offering transfers even possible at this time when a decision hasn't even been made yet . I think that's pretty arrogant for a facility that says they want to work with the town and it's residents.

If you are unable to attend in-person, you may submit a written question which will be read into the record by staff at the appropriate point in the public hearing. You may type in your question above or upload a document using the button below. Written questions must be submitted by the Sunday prior to the meeting.

Acknowledgment of Public Question Rules*

I understand that a Public Question must reference specific testimony, statement or document offered in the course of the application process and public hearing and I am responsible for providing the citation to the Plan Commission for reference. I acknowledge that the Plan Commission Chairperson or his designee will determine whether a question and/or answer will assist the Plan Commissioners in making a decision (*i.e.*, whether the question is relevant and not repetitive). If relevant and not repetitive, the petitioner, interested party, Village staff, or their witness will be invited by the Plan Commission Chairperson to answer the question. I understand that all questions and comments I provide will be made under oath and I acknowledge that I may be subject to cross-examination by the petitioner or interested parties.

I have read the instructions above and understand the rules for Public Questions

This will be a huge burden on Itasca. I have lived here my whole life. This is a small town with small town charm. My small town should not have the burden of the surrounding towns drug problems. Itasca has few drug arrests and overdoses. There is no need to put a drug rehab that will serve all of dupage supposedly in the very corner of dupage. It should be put in the middle to serve the entire community of dupage evenly. This was a horrible business move for haymarket who has already purchased the building. This will be a drain my towns resources and taxes will skyrocket. I am a recovering addict. I would never have chosen to go to Haymarket for a rehab option as it is known bu the drug community as a very poor rehab facility. High turn over rate. Poorly trained staff. Patient who become violent. God forbid. I need to ever go to a drug rehab i would rather go anywhere else. I would rather dry out in jail or go cold turkey on my own. The horror stories i have heard are unbelievable. I am in school currently to become and addictions counselor now and i would never want to work at Haymarket. Its is know to be managed poorly.

If you are unable to attend in-person, you may submit a written comment, which will be read into the record by staff at the appropriate point in the public hearing. 8/3/2021

Dear Chairman Daily and Members of the Plan Commission:

We have been informed that a member of the public recently questioned Dr. Lustig relative to why a representative of our organization has not appeared to testify in the current public hearing proceedings relative to the zoning application made by Haymarket DuPage LLC.

We have made a business decision not to participate in the proceedings so that the focus of Haymarket's zoning application can remain on Haymarket and the facts it is required to set forth for zoning approval. Our decision has nothing to do with Haymarket, nor with our ability to meet the ambulance needs of Haymarket, should zoning approval be granted. Evidence presented by Haymarket establishes that Elite Ambulance is a leading ambulance service provider in the Chicago area, and that it does provide ambulance services currently in the Village. Elite Ambulance has more than 130 years of experience in the ambulance and healthcare industry. We have entered into a contract to provide ambulance service to Haymarket DuPage LLC and we know we have the professional qualifications to serve Haymarket's needs. Information on Elite Ambulance is available at <https://www.eliteamb.com>. We invite you and interested residents of Itasca to review our qualifications.

Sincerely,

A handwritten signature in black ink that reads "D-Dooley".

Dennis Dooley VP/BD

My name is Jatin Majmudar and I live in Itasca. After hearing hours of testimony and cross examinations, I want to express that Haymarket has failed to explain clear economy impact per family. After hearing economy impact will be equivalent to 1 cup of coffee, they have failed to update that after hearing that there will be great impact on School (age 18 to 23), Police and Ambulance services. Their comparison assumes that previous Holiday inn will be occupied by non-profit organization, which might not be the case.

I needed ambulance service one day and Itasca's ambulance wasn't available, also Fire truck with ambulance came from Addison for which I had to pay. Assuming that Haymarket will use Itasca's ambulance services in emergency situations only, that will still have major impact on Itasca residence. Itasca already lacks proper coverage for ambulance per my experience. Adding Haymarket's emergency call volume will have greater health and well-being impact on everyone who lives in Itasca.

In testimony so far following items were un-answered.

- 1) What is the per day limit that Haymarket guarantees that they will not exceed daily 911 calls? What happens if 911 call volumes exceeds the amount that Haymarket has come up with?
- 2) If an ambulance is busy and if it comes from different township what is expected monetary and health impact on Itasca residence.
- 3) What happens should impact describe by Itasca Fire and Police chief materialize? Will Haymarket cover the additional cost beyond what 1 cup of coffee cost per family?

In short Haymarket has shown their estimates for economy impacts, and emergency calls but hasn't discussed what happens if economy and emergency calls impact is beyond their estimates. Who will bear the brunt of the impact is still not clear. I urge the planning commission to consider my comments when they make decision in this regards.

If you are unable to attend in-person, you may submit a written comment, which will be read into the record by staff at the appropriate point in the public hearing. You may type in your comment above or upload a document using the button below. Written comments must be submitted by the Sunday prior to the meeting.

Acknowledgment of Public Question Rules*

I understand that a Public Question must reference specific testimony, statement or document offered in the course of the application process and public hearing and I am responsible for providing the citation to the Plan Commission for reference. I acknowledge that the Plan Commission Chairperson or his designee will determine whether a question and/or answer will assist the Plan Commissioners in making a decision (*i.e.*, whether the question is relevant and not repetitive). If relevant and not repetitive, the petitioner, interested party, Village staff, or their witness will be invited by the Plan Commission Chairperson to answer the question. I understand that all questions and comments I provide will be made under oath and I acknowledge that I may be subject to cross-examination by the petitioner or interested parties.

I have read the instructions above and understand the rules for Public Questions

Acknowledgment of Public Comment and Testimony Rules*

I understand I have the right to make comments under oath (also known as testimony) during the hearing.

I also understand I may be subject to cross-examination by the petitioner or interested parties.

I have read the above instructions and understand the rules for Public Comments

MODE OF PARTICIPATION

Members of the public wishing to participate in the hearing are encouraged to sign-up in advance no later than the Sunday before the meeting they intend to speak at. Individuals who pre-register will be given priority to ask questions and/or provide public comment at the appropriate time.

What is the difference between public questions and public comment?

During Public Questions, individuals are provided an opportunity to ask a question about direct testimony that was provided by a witness or about documents submitted. Individuals should be prepared to reference a specific portion of the transcript by page number and/or a specific document page number at the beginning of the question. A link to all of the submitted documents can be found below. Questions will be directed to the Plan Commission Chairperson who will determine whether the question is relevant to the Plan Commission's deliberations. If so, the Chairperson will instruct the witness or petitioner to answer the question.

During Public Comment, the public is free to express opinions or make general statements to the Plan Commission regarding witness statements, documents or the matter in general.

Any person asking a question or providing a comment must do so under oath and may be subject to cross-examination by the petitioner or interested parties.

For the past 36 years, NAMI DuPage has worked with hundreds of thousands of DuPage residents living with mental illness. Many of the people we served were also diagnosed with substance-use disorder. This is even more true today than it was in years past. Unfortunately, there have never been enough treatment centers, particularly those that take people with no, or poor, insurance.

As a resident of DuPage County for nearly 40 years, I am telling you that this is a crisis that exists in our towns, schools, and in our families. We can no longer turn the other way, because when we do, we become part of the problem. I encourage you to support Haymarket Center, a respected non-profit with decades of experience in substance use disorder. I believe Haymarket Center will not only improve lives, but also save them.

Geri Kerger, Executive Director of NAMI DuPage

I am a social services specialist and CADC at the Elmhurst Public Library. DuPage County is desperately lacking treatment facilities for those individuals suffering from the disease of addiction. Haymarket could bring hope and healing to so many. Addiction knows no boundaries and is not limited to the city of Chicago. IT IS IN YOUR OWN BACKYARD! Why would you not want access to potentially life-saving treatment?

Substance Use Disorder, like any other disease, requires treatment. As a nation, we not only battle a pandemic, but an epidemic of drug and alcohol addiction. As a society, we have an obligation to care for our sick, and the objection to building this center is based on bias and misinformation. To the citizens of Itasca, ask yourselves these questions: How many of you have been touched by addiction? Family, friends, loved ones? Would you not desire help for them? Addiction does not discriminate...there is no race, gender or socioeconomic preference...it's an equal opportunity affliction. Unfortunately, there are accounts of treatment centers being opportunistic ventures. Haymarket has a solid reputation, evidenced based approached to the treatment of addiction, and most importantly, they open their door to least of our brothers and sisters.

Just wish to publicly express my concern over allowing this organization into our small community. It appears to be clear to everyone except Haymarket that Itasca is simply not equipped to provide sufficient support to make this a successful endeavor. I, for one, would not be happy if the time came that I needed the assistance of either the police or fire/rescue and they could not respond due to their having to respond instead to repeated calls to Haymarket. There's also transportation issues I can think of but will not expound on those in this message. Haymarket is just not the right business to occupy that building. Please do not approve the zoning of this property for this purpose. Thank you.

My name is Jessica Williams and I am a resident of Itasca. In my line of work I often see patients with addiction and who also need medical care due to addiction. I have seen the effects of withdrawal from addiction and how it can sometimes become a life threatening situation. Placing a 240 bed drug treatment facility in a town who only has one ambulance is irresponsible and dangerous to the patients at the facility and to the residents of Itasca. It is just too large. The place where i work also has a contract with an ambulace company to transfer patients to other facilities and I have noticed an increase in ETA with wait times often over 1 hour. This is not feasible when a patient needs emergency care. No one is going to wait around in an emergency and 911 will be called. I agree that more treatment centers and services are needed but one of this size would be catastrophic to the infrastructure of one of the smallest towns in Dupage county. This is why I oppose the Haymarket plan. Thank you.

If you are unable to attend in-person, you may submit a written comment, which will be read into the record by staff at the appropriate point in the public hearing. My name is Zankhana Majmudar and I am Itasca resident.

I am writing this letter to express my concerns regarding Haymarket Rehabilitation Center with 240 bed facility in relatively very small town Itasca.

Itasca emergency services already has less capacity and will be overburden by high volume of calls generated by Haymarket.

Three years back one of my family member needed ambulance service. Our house is just 2 minutes away from Itasca Fire Department.

It took more than 10 minutes for emergency vehicles to arrive just because the Ambulance and Fire Truck came from near by town.

This incident can happen again and I do fear not getting help on time because of emergency services are overburden servicing large facility like Haymarket.

If you are unable to attend in-person, you may submit a written comment, which will be read into the record by staff at the appropriate point in the public hearing. You may type in your comment above or upload a document using the button below. Written comments must be submitted by the Sunday prior to the meeting.

Acknowledgment of Public Question Rules*

I understand that a Public Question must reference specific testimony, statement or document offered in the course of the application process and public hearing and I am responsible for providing the citation to the Plan Commission for reference. I acknowledge that the Plan Commission Chairperson or his designee will determine whether a question and/or answer will assist the Plan Commissioners in making a decision (*i.e.*, whether the question is relevant and not repetitive). If relevant and not repetitive, the petitioner, interested party, Village staff, or their witness will be invited by the Plan Commission Chairperson to answer the question. I understand that all questions and comments I provide will be made under oath and I acknowledge that I may be subject to cross-examination by the petitioner or interested parties.

I have read the instructions above and understand the rules for Public Questions

Acknowledgment of Public Comment and Testimony Rules*

I understand I have the right to make comments under oath (also known as testimony) during the hearing.

I also understand I may be subject to cross-examination by the petitioner or interested parties.

My concern is regarding economy impact on town residence. One aspect of economy impact is property value. Dr. Lustig himself has expressed concern about general public's negative bias towards substance abuse treatment center facilities. If we take his own argument its not hard to imagine that once Haymarket Dupage opens here in Itasca, future would investors would not invest in Itasca. This is because of same bias that Dr. Lustig has talked about. Future home buyers would prefer near by towns compare to Itasca because of the same negative bias. This could result in property prices plummet in Itasca. For some us investment in house and businesses is the only retirement savings we have.

This concern has not been talked about much so far in hearing. I and my whole family (3 more adults besides me) strongly oppose Haymarket's proposal.

If you are unable to attend in-person, you may submit a written comment, which will be read into the record by staff at the appropriate point in the public hearing. To Whom It May Concern:

Our small town is too small for this type of responsibility, liability and burden pushed upon us. As citizens and taxpayers, we have a right to be heard. We have worked hard to build and maintain peaceful, safe & loving community for ourselves and our neighbors and just cannot allow to stand idle and let it all be compromised because someone with substantial amount of investment funds comes along and simply thinks this is the perfect location without any regard to residents who have been here for decades. I truly believe that somewhere else is the perfect location/city/town for this type of facility with larger proximity from its residents and their everyday life. I love this town too much not to say anything and to see our community be affected by lack of critical resources left, such as police & fire departments, to primarily serve our residents and do not want our kids to live and grow up in this environment which is toxic to them and their future.

Subject: Haymarket Treatment Center

Good evening,

I am writing to request that the city approves the application for the Haymarket Treatment Center. As a survivor of domestic violence myself, the programs that Haymarket can provide to the community(on an issue that is increasing in frequency across the nation) are important to have for supporting residents in times of need. The education that they provide will also help to break the cycle of domestic violence as more people can be educated on the subject and get themselves out of bad situations sooner. Please consider how this center can help the community in many ways that go above and beyond it's direct purpose.

Thank you and best regards,

Lynne Monticello

Letter of Support

August 12, 2021

Itasca Plan Commission
Village of Itasca
550 W. Irving Park Road
Itasca, Illinois 60143

Dear Commissioners:

As President and CEO of W.S. Darley & Company, I would like to express my continued support for the proposed Haymarket Center facility in Itasca.

I am a supporter of Haymarket Center because I recognize the need for a high quality, proven substance use treatment provider in DuPage and the collar counties. For over 14 years, we have been a member of Itasca's business community and tenant of the Spring Lakes Business Park.

I followed the hearings closely last year. I understand and appreciate the concerns of citizens of Itasca. In terms of proximity, my business is located nearer or as near to the proposed facility as any resident. While I don't live in Itasca, we share their concerns relative to *potential* impact on the safety, taxing of our first responders, property value impact, etc.

As a business that serves first responders, I appreciate and understand that concerns relative to potential financial and personnel strain on our EMS and other services has been addressed.

The Village of Itasca has been a wonderful place to operate our 113-year-old family business. As we served our first responders, you even allowed us temporary storage containers to facilitate the shipment of PPE orders we shipped locally and across the country. I've attached a copy of our recent newsletter showing what you helped us to accomplish.

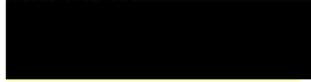

I have expressed my concerns to the Haymarket Center Board and they have assured us there are misperceptions about the type and amount of traffic from patients, visitors, etc. Based on our discussions, I believe they will be a good neighbor in the business park and an active member of the Itasca community.

I know we all share the desire to continue to look for ways to protect our safe and wonderful community, and I feel any risk associated with granting Haymarket Center the ability to operate a much-needed health care facility in this location, will be overshadowed by the caring and compassionate community supporting efforts to address an epidemic of opioid deaths and overdoses in DuPage and the collar counties.

We will continue to work closely with the Village either way, but as an impacted neighbor we are supportive of this project and urge you to vote in support of Haymarket Center in Itasca.

Thank you for your hard work on behalf of the business and residence of Itasca.

Sincerely

A black rectangular redaction box covering the signature of Paul C. Darley.

From the Office of

PAUL DARLEY

Where Does Corporate Social Responsibility Fit During These Times?

Never in my life have I been so attuned to learning from others as we adapt to this new world theatre. Virtual meetings focused on how to best reposition our company to serve our customers, while protecting our employees, have quickly filled the void of my weekly business travel schedule.

As we reinvent our business, we have also taken a hard look introspectively at our core values. Are the core values that have guided us for the last century still applicable? The answer is a resounding "Yes! Now more so than ever!" But we now feel the importance of perseverance, resiliency, and service to others...traits that helped my grandfather run our business during the last pandemic over 100 years ago.

For the past six months at Darley, we've been referring to the pandemic metaphorically as a baseball game with the end of the 9th inning being a time where people can travel the world safely again. As leaders during the crisis, we know we need to balance optimism with realism, and feel we are probably in the bottom of the 3rd or top of the 4th inning. In the first couple of innings, we focused on "donning our oxygen masks first" before assisting others.

Is this really the time to implement new environmental, social and governance initiatives? The answer here again is a resounding "Yes! Now more than ever!" You will read some of our initiatives in this newsletter, from moving to solar power and electric test engines, to community involvement.

While we've always been a purposeful business, we now have a renewed focus on service to others. I still vividly remember a conversation with my father, Bill Darley, when I was about 10 years old. He sat me down and explained how our company is a vehicle for greater good by service to others. We will never forget that message and it will continue to be a guiding light in all that we do.

Thank you for the opportunity to serve you. If there is anything we can be doing to assist you during these trying times, I hope you'll reach out to us. 📍

DETROIT SWITCHES TO DARLEY PUMPS

The Detroit Fire Department has officially reached Darley Demander status, setting the pace for Departments making the switch to Darley pumps. The DFD worked with Darley to provide small 1.5AG PTO driven pumps to provide emergency suppression capabilities on their aerial trucks and rescue squads. The past few years, the Department has equipped these PTO pumps on 17 apparatus provided by Darley OEM partners HME and Smeal. While these apparatus and their crews' primary responsibilities are not direct suppression, Deputy Fire Commissioner Dave Fornell and the Detroit team had seen too many instances where an extinguisher wouldn't cut it. One of these rigs was first on scene of an MVA or small Room and Contents Fire and "We were able to knock down the fire before the arrival engine companies," commented Dave Fornell.

Detroit FD recent equipped 17 apparatus, 35 pumpers and a fire boat with Darley pumps.

It didn't stop there. While integrating these apparatus, the Detroit team was also looking to update and improve their fleet's pumpers. The DFD's teams of divisional stakeholders in Maintenance, Training, and Operations spent significant time researching pump manufacturers. After many discussions, the decision was made to move forward with the Darley PSM. In March, Detroit awarded a five-year contract to Spartan for 35 pumpers equipped with the Darley PSM, through Spartan Dealer and Darley partner Ricke Roselle, of R&R Firetrucks. The first six of these pumpers are scheduled for delivery this Fall.

To top it off, the FD will also be taking delivery of a fire boat equipped with a Darley PSDE provided by Darley OEM partner Silver Ships. These boats also contain a number of FBX products. Talk about making the Switch! Darley couldn't be more proud of our partnership with the Detroit FD as we continue to welcome new customers and enhance and strengthen our relationships with longtime customers.

The rescue "squads" feature Darley 1.5AG PTO driven pumps which provide emergency suppression capabilities.

For more information on the 1.5AG, PSDE, or PSM pump or to schedule a tour, please reach out to jason.darley@darley.com or at 715-456-9390. 📍

Digital Marketing Shifts for Team Darley

With COVID-19 precautions in place, most of the Itasca office staff immediately began telecommuting. We have constant dialogue regarding ways to leverage technology to better facilitate our marketing objectives. Tradeshows and in-person customer and supplier engagements have been cancelled or postponed for at least a year. This has driven a shift to virtual events. We are working to facilitate these events, host our own, and help sales representatives with smaller more relationship-based engagements. To engage in on-demand content of past virtual events, please visit www.darley.com/webinars.

Watch Inside Darley, Paul Darley's monthly video series, on-demand.

Darley has hosted a large number of virtual events since the start of the pandemic.

Please continue to share recommendations for how we can better reach our customers. Look for our line-up of webinars, podcasts, white papers and essay competitions on the newly redesigned www.darley.com, all meant to drive innovation and thought leadership. We are striving to make Darley the source for the latest information on how to accomplish missions as safely and efficiently as possible. 📍

TEAM DARLEY DOES WELL BY DOING GOOD

Darley Headquarters is Going Solar

We are excited to announce Darley headquarters is going solar! With solar panels installed, over 75% of the facility's annual energy load will be covered, with an estimated 203,565 solar energy output (kWh). It is expected to generate 4,631,104 kWh of energy over the next 25 years.

Fossil fuel consumption is one of the leading causes of global warming. The more traditional energy sources we burn, like oil, gas, and coal, the more greenhouse gases we release into the atmosphere. These pollutants can disrupt earth's delicate balance, leading to climate change and environmental destruction. However, energy produced by solar panels doesn't emit CO2 or other greenhouse gases. By installing solar panels, Darley will offset 257,654 lbs. of CO2 per year, equivalent to planting 66.56 acres of trees yearly. Darley will draw less traditional energy from the grid, reducing our carbon footprint. Our work in renewable energy and green business is an ongoing process, one that we are fully committed to, because the future of the environment depends on it. 🍀

Solar panels on Darley HQs are estimated to cover 75% of the facility's annual energy load.

Darley is Proud and Humbled to Receive Distinguished Awards

Sticking with our 2020 corporate theme of staying "Hungry and Humble," and despite recent challenges, Team Darley continues to receive unsolicited accolades, with most recent recognition from the Office of the Secretary of Defense, the Better Business Bureau, and Inc. Magazine.

Office of the Secretary of Defense Recognizes Darley

The Office of the Secretary of Defense recently awarded Darley the Patriotic Employer Award, which is awarded to employers supporting National Guard and Reservists by accommodating their duties to the Nation. Our Defense division is comprised mostly of active duty and reserve veterans. Learn more about our Defense division at www.darleydefense.com. 🍀

Darley received the Patriotic Employer Award and continues to maintain an A+ rating by the BBB.

BBB RATING: A+

Darley's Better Business Bureau A+ Rating Continues

Passionate customer focus is one of Darley's core values, which is evidenced by our perennial presence among the accredited businesses receiving an A+ rating by the Better Business Bureau. We are humbled to earn this rating and proudly display the seal on our buildings, websites, and corporate communications. 🍀

Inc. Magazine Names Darley One of Fastest Growing Companies in America (Again)

On August 14, 2020, Inc. Magazine revealed this week that W.S. Darley & Co. once again is on its annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies. Darley ranked in the top 50% of companies with a three-year growth rate of 164%. Darley was also recognized by Crain's magazine as one of the 50 fastest growing companies in Chicago.

Even more impressive, over the last decade, Darley has made the Inc. 5000 list nine times! According to Inc., less than one-half of one percent (.50) of listed companies have achieved this milestone.

Paul Darley, company CEO cited, "Darley is honored and humbled to receive this award again this year. Our hardworking and dedicated team is passionately focused on serving our first responder customers. It's a privilege to serve them."

The list represents a unique look at the most successful companies within the American economy's most dynamic segment - its independent small businesses. Intuit, Zappos, Under Armour, Microsoft, Patagonia, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at www.inc.com/inc5000. 🍀

Darley has made the Inc. 5000 list nine times over the last decade!

Darley Partners with Fire Fighter Cancer Foundation

Many leading firefighter deaths (cancer, heart attack, suicide, trauma) are preventable with the proper knowledge, training and work practices. Darley recently began working with the Fire Fighter Cancer Foundation to develop new health and wellness educational content using 360° video and graphic icons to educate firefighters.

Cindy Ell, President, Fire Fighter Cancer Foundation, states, "The rapidly changing times, access to in-person contact and growing challenges facing fire service safety are motivating us to move training and education into new dimensions. Current technology and procedures will continue to evolve, but with heightened scrutiny of validity of purpose and the purchase power of departmental budgets stretched tighter, the Fire Fighter Cancer Foundation team is excited to advance technological and educational offerings with Darley to create "smarter firefighters." Contact kevinsofen@darley.com for more information. 🍀

Darley is helping to develop new health and wellness educational content using 360° video and graphic icons.

AquaBlaster Relieves Firefighter Stress

Most every week, a firefighter or inventor contacts Darley with an idea for a new product they want us to introduce to the fire market. Ken Blocker is a great example of a firefighter with a passion and the belief that his product "The AquaBlaster" can make a firefighter's job more effective while relieving some of the stress associated with the rigors that come with the job. Ken is a former City of Columbia, SC firefighter and first came up with the idea in 1999. The AquaBlaster is a chest-harnessed system that allows the firefighter to use his or her body to absorb the nozzle reaction while fighting a fire instead of just hanging on to a hose line. Departments can use their existing nozzles. The AquaBlaster has an 1.5" NST inlet and outlet standard, NPSH and other hose threads are available.

See more information on this product and a video online at www.edarley.com, keyword search "AquaBlaster".

21 ODIN Cobra CAFS Headed to U.S. Army

Darley's Odin Foam division recently received an order for 21 Odin Cobra engine driven compressed air foam systems for the U.S. Army. Over the next few months, Odin will work with Rosenbauer America to fulfill this order.

The Cobra is designed to fit nicely behind the cab on the frame rails of a 4x4 Ford F550, Ram 5500, or GMC/Navistar 5500 chassis. This fully-independent, cross mount, 73 HP Hatz diesel engine driven CAFS pump package offers 250 GPM NFPA ratings as well as full drafting capability with the Darley 2.5 AGE centrifugal fire pump and Darley rotary vane primer.

Ohler Completes Order for 800 Tank and Pump Systems for FEMA

Darley's Ohler Pumps division recently completed an order of 800 Tank and Pump Systems (TPS) for the Federal Emergency Management Agency (FEMA.) The Darley TPS features a 230 gallon poly water tank, an internal sprinkler pump, and an automatic control system. The TPS will be integrated into FEMA temporary mobile housing units in disaster areas to work as a fire sprinkler system. These systems will be heading to Maryland, where they will be prepared for emergency transport to future disaster areas. To learn more, please visit www.darley.com/ohler-pumps.

Darley Proudly Partners with U.S.-Based PPE Supplier Laws of Motion

Darley Defense is proud to partner with Laws of Motion to bring critical PPE supplies to our Federal customers. Laws of Motion's state-of-the-art U.S.-based production capabilities utilize proprietary machinery and materials to manufacture high-volume, high-quality face masks, gowns, shoe covers, and bouffant caps that are Berry, BAA, and TAA compliant. Laws of Motion's focus on U.S.-based production mitigates overseas dependence on PPE imports, and celebrates the heritage of American manufacturing while investing in a legacy of innovation and creating thousands of jobs for U.S. workers.

LAWS OF MOTION

Syncro ASM Detection and FES Suppression on 4 New Maltese Ferries

Our UK division recently installed and commissioned fire detection and suppression systems on four new ferries built on the Isle of Wight for Malta. Two 60 ft. and two 99 ft. ferries were completed. Another great job protecting the crew and passengers!

Innovative Technology, High-Strength, Impact & Corrosion Resistance

Polybilt and Darley are proud to show off this special pumper featuring our PolyBilt WASP series Integrated Body with 25 gal. Foam and 320 gal. water tanks. At the heart of this unit is our Darley LSM 1000 GPM fire pump with a FoamPro 2001 class A foam system. This rig includes our Super Single Tire and suspension lift package which provides for increased ground clearance and is geared for increased power for "Go Almost Anywhere" capability.

Visit www.darley.com/north-evans to watch a full educational video on this Blue Monster.

Question?

How does Darley go about validating a new pump product they are thinking of offering for sale?

Asked by: John Schultz, Pierce Manufacturing

Answer.

There are several different tests conducted to ensure a new pump works as desired. The first test is dry vacuum testing to ensure that it holds a vacuum. The pump will be taken to at least a 22 in/Hg (75 kPa) dry vacuum and then watched to see how that vacuum changes over time. That vacuum cannot drop more than 10 in/Hg (34 kPa) in a five-minute time span to be considered passing. The pump would then go through a hydrostatic pressure test to ensure it's structurally capable of containing pressure. Typical hydrostatic pressure tests are done at 500 PSIG (3400 kPa) for a 10-minute time span without any leaks whatsoever for it to be considered passing.

The next test is finding the highest flow rate when following NFPA or CCC guidelines. This is done by running at the highest flow rate we think the pump could be rated for, at the overload discharge pressure of 165 PSI (1100 kPa), while finding what the maximum suction vacuum is. We find that maximum suction

Pumps are required to pass several rigorous tests before they are available for purchase.

vacuum by putting a valve in the suction hose and then slowly closing that valve until a greater suction vacuum cannot be attained while we adjust the engine speed to keep the flow rate and discharge pressure at the rating point. If the pump can adequately attain the

necessary suction vacuum that demonstrates the required drafting height plus a margin of safety for that flow rate, then the pump is deemed capable of that rating. Our margin of safety on drafting height is typically 1.5 ft (.46m) over the required drafting height. The pump will then be run at its maximum ratable flow rate for four hours continuously, at the overload discharge pressure, to ensure the transmission oil temperature stabilizes and does not exceed our desired temperature limit which is typically 250°F (121°C). If it passes that test, we then run a full pump curve.

A full pump curve is simply running the pump at every imaginable engine speed and flow rate we think is possible for it to endure. If the pump operated smoothly throughout that entire pump curve testing, it would then be considered passing that test. We then run the pump in four-hour time blocks at the performance points of its maximum rating. Say for a 2250 gpm rated pump we would run at 2250 gpm at 165 PSI for four hours followed by running at 2250 gpm at 150 PSI for four hours followed by running at 1575 gpm at 200 PSI for four hours followed by running at 1125 gpm at 250 PSI for four hours and then repeating those same four-hour blocks all over again. This keeps repeating until the pump has a total run time of 100 hours. After all that testing is passed, the used oil from the transmission is sent out for a laboratory analysis. We then disassemble the pump and examine the used parts for any signs of unexpected wear. If the used oil was still usable and the used parts appeared to have normal wear, we would deem the entire pump passing its required testing and be available for sale. ■

NEW

The new compact TS pump achieved flows of 2000 gpm @ 150 psi during pump curve testing.

E-One Selects Darley PSP 1500 Pump for 49 Titan Air Transportable ARFF Vehicles for the U.S. Air Force

E-ONE, a subsidiary of REV Group and a leading manufacturer of fire apparatus, has selected Darley as its pump supplier for new TITAN® 4x4 Air Transportable (AT) ARFF P-19C vehicles to the United States Air Force (U.S.A.F.)

These vehicles are specifically designed to fit on Lockheed Martin's C-130 Super Hercules, allowing the vehicles to be rapidly deployed to U.S.A.F. bases around the world. This TITAN AT P-19C is about two-thirds the size with a transport weight of less than 26,000 lbs. and GWR (gross vehicle weight rating) of approximately 42,000 lbs., while meeting all the performance requirements of NFPA 414 with acceleration from 0-50 mph in less than 25 seconds.

The extruded aluminum cab, with 56.4 sq. ft. of glass area and cockpit style seating, provides outstanding visibility for the driver, officer and crew. Each of these vehicles will be painted in a matte finish desert sand color.

The TITAN® ARFF vehicle features a Cummins 500 HP engine, Allison 4000 EVS transmission, Cushman power divider, 1000 gallon water/140 gallon Class "B" foam concentrate tank, 250 lb. dry chemical system and a Darley PSP 1500 gpm water pump.

"E-ONE has built the Air Force Fire & Emergency Services the next generation air transportable ARFF truck by taking us from an early 1980s model to today's environment for our warfighters, while still remaining consistent with the airframe utilized for transportability around the world," said Fred Terryn, Fire Vehicle Program Manager for the U.S. Air Force. "The new TITAN AT will be the workhorse for our deployed firefighters and E-ONE has ensured it meets our requirements wherever the mission is requested."

"We are very excited the U.S. Air Force selected E-ONE to build the next generation air transportable ARFF vehicle," said RJ Jones, Key Account Manager for E-ONE. "To meet the strict dimension and weight requirements for loading onto a C-130 aircraft, E-ONE engineers worked closely with the U.S. Air Force and chose Darley to assist us with the pump and plumbing components on this truly innovative vehicle."

E-One Pump and Plumbing Engineer, Steve Swayze commented, "Darley worked with us on a unique pump layout. The compact design and lightweight Darley PSP were instrumental in helping us achieve our weight and space requirements. The Darley pump easily pumps 1800 GPM @ 200 PSI, well above its rated capacity." ■

The Titan is designed to fit into a C130 for rapid deployment.

The Ecologic allows safe testing of the foam system.

From the Office of

JEFF DARLEY

From Diesel to Renewable Energy Resources

Since the beginning of the Darley Pump Division, all fire apparatus vehicle-driven pumps were bench tested with either a gas or diesel engine. By years end, all Darley vehicle driven pumps will now be bench-tested using electric motors with Variable Frequency Driven (VFD) controls.

Darley has five test bays consisting of one 250 HP, three 500 HP and, on the fifth bay, we are currently installing a 1000 HP electric motor. This fifth motor will allow us to test beyond what is currently available in any chassis being used in the fire apparatus industry. We are very excited to match this up with our 2ZS 6000 GPM pump to see if we can validate improved record setting performance.

Darley has partnered with Xcel Energy and their Focus on Energy team. We are on a power management program with Xcel Energy so we can keep our power consumption lower when needed. From 9 am to 9 pm, we limit power draw to help protect the power grid while it has the greatest demand. Additionally, we are environmentally conscious and are receiving over 40% of our power from renewable resources such as air, wind, water, and solar power.

One major advantage in exclusively using electric motors is a reduction in our carbon footprint. We no longer run diesel motors throughout all hours of the day, which significantly decreases our nitrogen oxide emissions and is great for our environment. Additionally, we are better stewards of our community. Our neighbors no longer hear the roar of the engines. Other advantages we are seeing with electric motors include far less preventive maintenance, significantly reduced downtime potential, and less demand on fossil fuels.

Darley is a progressive, innovative, forward-thinking world-class manufacturer of fire pumps. We welcome the opportunity for you to visit Darley's Chippewa Falls operations (after the COVID 19 pandemic) to see it for yourself! 📍

INSIDE DARLEY

Darley Employees Give Back to Local Communities

Doing good and giving back to our communities is important to Darley. Many of our employees share this mindset and generously donate their knowledge and time to make positive impacts at the local level. Below are Kevin Sofen and Kyle Darley's initiatives.

Solutions Addressing the Lead Water Crisis in Flint, Michigan

Kevin Sofen continues to complete water projects in Flint, MI, including short and long term solutions addressing the lead water crisis. Until all lead pipes are replaced and trust is restored, Kevin works with sponsors to contribute Box of Rain Safe Water Boxes to families in Flint and Newark for short term relief, while working to implement long term solutions such as water treatment, pipe replacement, water quality testing, water quality reporting, water education, and community engagement.

To learn more about these exciting initiatives or partnering on a new opportunity to give back, please contact kevinsofen@darley.com or visit www.BoxOfRainWater.co. 📍

Kevin Sofen works with sponsors to contribute Box of Rain Safe Water boxes while continuing to assist with long term solutions.

Erickson Park Project in Chippewa Falls, Wisconsin

Kyle Darley recently Co-Chaired the Capital Campaign for the Erickson Park Project in Chippewa Falls, WI. The project had a goal of providing ADA compliant fishing access for all members of the community. The project scope grew from a fishing pier to include bike trails, a boat launch, a handicap accessible canoe and kayak launch, and a bridge which now connects the park to Chippewa's famous Irvine Park! Additionally, Kyle is serving

One of Kyle Darley's goals included building a handicap accessible canoe and kayak launch.

The newly constructed bridge now connects Erickson Park to Irvine Park.

in his 2nd year on the Board of Directors for the United Way of the Greater Chippewa Valley. Kyle recently accepted the role of Vice Chair of the Board. He is looking forward to earning a position as the Board Chair in coming years. If you have questions while planning your next visit to these great sites, reach out to kyledarley@darley.com. 📍

EMPLOYEE PROFILE

Kim Cummuta - Controller

Kim joined Darley in 1997 as an Accounts Payable clerk, vouchering vendor invoices and filing. With a "learn-it-all" attitude, Kim has advanced her career to the Controller position with her recent promotion.

Kim has a wide range of experience at Darley. Over the years she has worked closely with the accounting team to establish policies and procedures in accounts payable, accounts receivable, payroll, inventory, and general ledger areas. Transactions are monitored daily to ensure we efficiently maintain accurate financial statement reporting.

Kim is also currently assisting our CFO, John Gruber, in transitioning over to BMO Harris Bank and recently joined the newly created Middle Management Team.

"This promotion is well earned and deserved. Kim has really impressed us with her abilities with our ERP system, preparing the financials and other duties...all tasks deserving of this promotion," stated Paul Darley, President & CEO.

Kim commented, "I truly love working for a company that believes in and is true to its core values. We definitely have a strong momentum at Darley, and I'm proud to be part of Team Darley. I enjoy coming to work every day, I enjoy what I do, and I enjoy being challenged."

In Kim's personal life she is married with three children, Kim began dating her husband the same month she started at Darley. She enjoys spending time with her family, traveling, scuba diving, exploring nature and finding adventure. 📍

Audrey Darley Featured in Family Business Magazine as NextGen to Watch

Family Business Magazine recognized Audrey Darley (fourth generation Darley) in its NextGens to Watch Class of 2020.

The article, from the July/August 2020 issue, cited Audrey's work experience before joining the family business, as well as her active involvement in company initiatives and other business organizations. Audrey is currently the Director of Supply Partner Relationships for Darley's fast-growing Defense division.

Audrey earned a BS degree in Finance from the University of Illinois and worked as a commercial banker for four years, prior to joining Darley in 2014. Darley family members are required to work outside the company in meaningful employment for 3-5 years. "The opportunity to carry on our family tradition of serving first responder and tactical communities is something I am innately proud of every day," Audrey says. "Spending time outside of the business allowed me to not only explore my key skill sets, but to appreciate our history and realize what we have been fortunate enough to grow."

She and her husband, Stephen, welcomed their first child, Grayson, on July 28, 2020.

FOURTH GENERATION DARLEY

Jasmine Darley

Jasmine Darley is 11 years old, the youngest daughter of Jimmy and Christina Darley and a fourth generation (G4) descendant of our company founder, William S. Darley.

Like most kids in the world, she's had to adjust to new realities of social distancing and virtual classrooms but is handling it in stride as a 6th grader. Jasmine comments, "Instead of thinking of all the things I can't do, I try to focus on the things I can do like working on my soccer skills or just riding around on my bike with friends."

Other interests include water sports and theatre and her love of the family's two dogs and cat, Tino, Jett & Hunter.

She and her cousins recently got up early, walked 21 mi. around the lake path of the beautiful Geneva Lake in Wisconsin. "It was hard but it was fun. It was my second time around," said Jasmine.

There are currently 31 fourth-generation Darley family members who are descendants of William S. Darley.

DARLEY PUMPS IN UNIQUE APPLICATIONS

Darley Pumps Used for Underwater Dredging

SNA International, together with the Defense POW/MIA Accounting Agency, recently partnered to utilize Darley pumps for dredging to assist with human identification and forensic initiatives. Pumps are used to power jets in order to create a suction for the diver to dredge sediment.

Ezra Swanson of the DPAA, who has been utilizing Darley's marine version of the HGE37EFI portable pump on a mission in Vietnam, states "Switching to Darley pumps and priming systems reduced our man hours by a factor of 15! This enabled us to spend more time focused on our mission of finding our lost Service Members."

Efficient Darley pumps greatly reduced man hours dredging.

Darley's marine version of the HGE37EFI portable pump is versatile and compact.

This pump has been used for multiple purposes both on land and at sea due to its versatility and compact size. "The electronic fuel injection on this 37HP Briggs has also been a real hit," says Darley National Pump Sales Manager, Jimmy Darley.

P25 Shipboard Firefighting Vehicle Equipped with Darley HH500 Pumps Used on Naval Carriers

The P25 is a highly specialized shipboard firefighting vehicle used on Naval carriers which utilizes a hydraulically driven Darley HH500 fire pump.

The Darley HH500 pump allows for quick knockdown for flight ops.

Jay Bergund, engineer at Entwisle Co., who manufactured the vehicles, states, "This vehicle is the first to respond so they can start knocking down the fires and is an essential component for flight ops."

Fireboat for Kuwait Packed with Innovation

MetalCraft built a fully compliant NFPA 1925 50' Firestorm vessel packed with innovation including oversized sea chests and manifolds with twin Darley ZSM 3000 pumps which achieved 7,500 gallons per minute in sea trial testing. Consider Darley for all your marine applications. View more information on www.marinelog.com.

Two Darley ZSM pumps achieved 7,500 GPM in sea trial testing.

Darley Makes Overnight Delivery of Floating Pumps to Louisiana to Assist with Flooding

Robert McCormick, Emergency Management Officer with the Louisiana Office of State Fire Marshal, purchased seven Darley floating pumps for fire fighting and dewatering purposes deployed on small water craft during recent flooding of several counties. Robert commented, "This worked out well for us at a time when fast delivery was crucial to operations. Darley met the challenge shipping all product within 24 hours of having placed a call."

The Darley HEF 10.5BS floating pump can be quickly deployed.

Keep Rescuers Out of the Danger Zone with EMILY Battery-Powered Remote Control Lifesaving Rescue Asset

Darley is excited to partner with Hydronalix to offer customers the Emergency Integrated Lifesaving Lanyard (EMILY). NEW

The EMILY platforms are designed as an asset for public safety organizations. EMILY offers scene stability as a remote control asset in dangerous and hazardous waters by keeping rescuers in a safe area. The EMILY technology complements public safety teams in hazardous water conditions without adding additional staff. Battery-powered and remote-control-operated using line-of-sight technology, EMILY provides a viable alternative to traditional rescue methods.

Now available on www.eDarley.com/EMILY. 📧

Explore the New Darley.com

We are excited to release an all new www.darley.com. "We completely redesigned and rebuilt the site from the ground up with a goal of making it easier to locate Darley products, services and team members," states Darley's Director of Online, Joe Catania.

The new Darley.com has an improved search function and responsive layout designed specifically for smaller screens.

Darley's new homepage shares a comprehensive glance at our divisions, with easy-to-navigate content. Further, each division has a dedicated space to showcase products and services with clearly accessible contact information and expanded directories. With mobile device usage on the rise, we paid special attention to the mobile experience, featuring responsive layouts designed

Redesigned product listings feature expanded content.

specifically for smaller screens. We also focused heavily on the search function, adding a new full screen search window and expanded results, organized into Darley products, people and media.

Also new to the site are dedicated spaces for training products, expanded listings for apparatus, as well as equipment and defense resource centers.

Darley has always been focused on sharing content generated from podcasts, webinars, blog posts, publications, and our growing number of virtual events, now available on-demand in special sections dedicated to each media type.

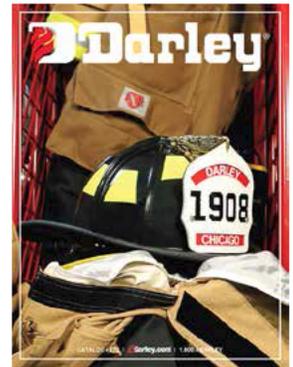

Our in-house team of digital experts is proud to share this milestone and hope you enjoy the new user experience. Please share your feedback with joecatania@darley.com. 📧

MODE OF PARTICIPATION

Members of the public wishing to participate in the hearing are encouraged to sign-up in advance no later than the Sunday before the meeting they intend to speak at. Individuals who pre-register will be given priority to ask questions and/or provide public comment at the appropriate time.

What is the difference between public questions and public comment?

During Public Questions, individuals are provided an opportunity to ask a question about direct testimony that was provided by a witness or about documents submitted. Individuals should be prepared to reference a specific portion of the transcript by page number and/or a specific document page number at the beginning of the question. A link to all of the submitted documents can be found below. Questions will be directed to the Plan Commission Chairperson who will determine whether the question is relevant to the Plan Commission's deliberations. If so, the Chairperson will instruct the witness or petitioner to answer the question.

During Public Comment, the public is free to express opinions or make general statements to the Plan Commission regarding witness statements, documents or the matter in general.

Any person asking a question or providing a comment must do so under oath and may be subject to cross-examination by the petitioner or interested parties.

Together We Thrive.

August, 2021

Dear Zoning Commission, Village Leadership, and Residents of Itasca,

Kenneth Young Center is proud to support the opening of Haymarket Center. As a community leader for more than 50 years providing mental health services, KYC is uniquely qualified to speak to the immense need for mental health and substance use treatment in the northwest suburbs.

As the community's needs have grown, so has KYC, but never more than over the last two years facing COVID-19. Our team receives more than 600 calls a month for outpatient behavioral health services. These calls are from children, adults, and families living in our community. We provide substance use prevention services in school districts, as well as non-clinical recovery services, called SMART Recovery. In 2018, KYC became a licensed provider of substance use disorder treatment for Level 1 and Level 2 services. The services that Haymarket would be able to provide would complement the services KYC knows are needed in the community.

Those who have a substance use disorder, a disease, are stigmatized as "other", but let's imagine for a moment living and working in a community that celebrates and supports youth and adults seeking care and actively engaging in their recovery. Because the road to recovery is long and there are no shortcuts, inclusive and varied supports and services are essential to meet individuals and families where they are. What Haymarket is able to offer through this facility will help change lives. If this building were to provide cancer treatment, there would be no opposition. It is time to evolve our community's response to recognize that mental health and substance use services provide critical healthcare that keeps our neighborhoods thriving.

KYC looks forward to partnering with the team at Haymarket Center to support families in need, working in close collaboration to serve our community. At KYC, we believe that together we thrive.

In service,

Grace Hong Duffin
President & CEO

Comments to the Plan Commission - Eric Haerr.pdf

Acknowledgment of Public Comment and Testimony Rules*

I understand I have the right to make comments under oath (also known as testimony) during the hearing.

I also understand I may be subject to cross-examination by the petitioner or interested parties.

I have read the above instructions and understand the rules for Public Comments

Hello,

My comments are addressed to the members of the Plan Commission.

As stated prior to every hearing, Mr. Hervas reminds the audience that the "*The Plan Commission will make findings and a recommendation to the Village Board. Please understand that the Plan Commission is a recommending body. The Village Board will make the final decision on the Haymarket zoning petition.*"

I interpret this to mean that it is the responsibility of the Plan Commission to **analyze** all information that has been presented and **formulate** a recommendation for the Village Board. After all of the presentations and hearings, however, I believe there is still an **information gap** that requires research and analysis. I'm asking the Plan Commission to consider the following for further investigation.

While there have been studies and testimonies regarding the potential financial impact due to the loss of the Holiday Inn hotel taxing revenue there has been **no impact analysis on existing Itasca businesses and commercial property landlords, if the zoning request is approved or denied**. To be fair this analysis could result in different conclusions. It could yield a positive, a no change, or a negative outcome to the village's finances. Let's break that down a little. Assuming the zoning request from Haymarket is approved a potential positive outcome could be that existing businesses will continue status quo and that new businesses would be generated to support Haymarket. No change assumes only the loss of the Holiday Inn taxing revenue. **A negative conclusion however, could result in additional loss of the village's tax revenue due to other tax paying businesses moving out of Itasca.**

I imagine few local businesses and commercial landlords will be willing to publicly take a stand either way on the zoning request. Thus, probably the reason why we have heard no businesses provide testimony or public comment. However, to think that **all of those stakeholders are completely neutral** to the Haymarket zoning request surely cannot be the case. While we may not know what plans of the local business are, it would be prudent for the Plan Commission to do deeper financial analysis as part of the recommendation to the Village Board based on the potential outcomes of the potential business' decision.

Thank you.

As community leaders in Itasca, Illinois, revisit a proposal to place a drug treatment and rehabilitation center in the village, the National Safety Council (NSC), whose headquarters is located down the street from the proposed center location, reiterates its support for this proposal. We also believe it is critical that this plan be debated using the latest facts and data, rather than on hyperbolic or misleading information.

NSC is America's leading nonprofit safety advocate — and has been for over 100 years. As a mission-based organization, we work to eliminate the leading causes of preventable death and injury, focusing our efforts on the workplace, roadway and impairment. We create a culture of safety to keep people safer in the workplace and beyond so they can live their fullest lives. NSC has more than 15,000 member companies, including 370 in Illinois.

COVID-19 has made access to drug treatment and rehabilitation facilities more important than ever. Similarly, the need for a comprehensive approach to reducing these deaths and saving lives remains crucial. In 2020, preliminary data shows that over 93,000 people died due to drug overdoses, and nearly 70,000 of those were caused by opioids. Overdose deaths have accelerated during COVID-19, as this was a 29% increase over the same period in 2019 and the highest number of fatal overdoses ever recorded. Unfortunately, even the village of Itasca is not immune to this experience and our thoughts go out to those who have lost friends and loved ones to this epidemic. We must take action to curtail opioid misuse and help those who are struggling with substance use disorders get the treatment they need to live their fullest lives. Treatment centers provide this necessary assistance.

As was the case in 2019 when conversations began, some area residents have voiced concerns about community safety regarding this proposed project. We would like to reaffirm what we said then:

- Counties with treatment facilities experience drops in drug-induced mortality rates, according to a study from the Institute for the Study of Labor. Research from the National Bureau of Economic Research (NBER) indicates that adding treatment facilities in counties reduces local crime, both violent and financially motivated. NBER finds that an additional treatment facility reduces homicides by between 0.18 and 0.24 percent, along with reductions in robbery, motor vehicle theft, burglary and larceny. Additional research finds that increasing access to treatment significantly decreases robbery, aggravated assault and larceny theft.
- Communities with treatment centers also benefit financially. The average cost of operating one facility is \$1.1 million annually, and communities save \$1.2 million to \$2.9 million each year because of reductions in crime.
- Access to treatment can be the difference between life and death for many people struggling with substance use disorders. Unfortunately, less than 10% of people with addictions have access to treatment. We must do more to expand access, because counseling and behavioral therapy, coupled with medication-assisted treatment, is the most effective way for most people to address opioid dependency.

Finally, we need better education around the nature of addiction, because it is a disease – not a decision. Miseducation perpetuates stigma, and stigma is a common barrier to treatment, not just for communities but for those who are struggling with addiction and dependency. In order to save lives, we must approach addiction the same way we approach all chronic illnesses, and that means expanding access to proven treatment options.

The National Safety Council has data, tools and other resources to fight overdoses and encourages community members to review this information so they can learn more about this topic. A need for urgent action exists, including expanded access to treatment. If you have any questions or would like more information, please contact Tara Leystra at tara.leystra@nsc.org.

If you are unable to attend in-person, you may submit a written comment, which will be read into the record by staff at the appropriate point in the public hearing. I understand I have the right to make comments under oath (also known as testimony) during the hearing.

I also understand I may be subject to cross-examination by the petitioner or interested parties.

I have read the above instructions and understand the rules for Public Comments

**National Safety Council
Statement in Support of Haymarket Center Proposal
Itasca Plan Commission
August 25, 2021**

As community leaders in Itasca, Illinois, revisit a proposal to place a drug treatment and rehabilitation center in the village, the National Safety Council (NSC), whose headquarters is located down the street from the proposed center location, reiterates its support for this proposal. We also believe it is critical that this plan be debated using the latest facts and data, rather than on hyperbolic or misleading information.

NSC is America's leading nonprofit safety advocate – and has been for over 100 years. As a mission-based organization, we work to eliminate the leading causes of preventable death and injury, focusing our efforts on the workplace, roadway and impairment. We create a culture of safety to keep people safer in the workplace and beyond so they can live their fullest lives. NSC has more than 15,000 member companies, including 370 in Illinois.

COVID-19 has made access to drug treatment and rehabilitation facilities more important than ever. Similarly, the need for a comprehensive approach to reducing these deaths and saving lives remains crucial. In 2020, preliminary data shows that over 93,000 people died due to drug overdoses, and nearly 70,000 of those were caused by opioids.¹ Overdose deaths have accelerated during COVID-19, as this was a 29% increase over the same period in 2019 and *the highest number of fatal overdoses ever recorded*.² Unfortunately, even the village of Itasca is not immune to this experience and our thoughts go out to those who have lost friends and loved ones to this epidemic. We must take action to curtail opioid misuse and help those who are struggling with substance use disorders get the treatment they need to live their fullest lives. Treatment centers provide this necessary assistance.

As was the case in 2019 when conversations began, some area residents have voiced concerns about community safety regarding this proposed project. We would like to reaffirm what we said then:

- Counties with treatment facilities experience drops in drug-induced mortality rates, according to [a study](#) from the Institute for the Study of Labor. [Research](#) from the National Bureau of Economic Research (NBER) indicates that adding treatment facilities in counties reduces local crime, both violent and financially motivated. NBER finds that an additional treatment facility reduces homicides by between 0.18 and 0.24 percent, along with reductions in robbery, motor vehicle theft, burglary and larceny. [Additional](#)

¹ Ahmad FB, Rossen LM, Sutton P. Provisional drug overdose death counts. National Center for Health Statistics. 2021. <https://www.cdc.gov/nchs/nvss/vsrr/drug-overdose-data.htm>

² <https://www.cdc.gov/nchs/nvss/vsrr/drug-overdose-data.htm#notes>

[research](#) finds that increasing access to treatment significantly decreases robbery, aggravated assault and larceny theft.

- Communities with treatment centers also benefit financially. The average cost of operating one facility is \$1.1 million annually, and communities save \$1.2 million to \$2.9 million each year because of reductions in crime.
- Access to treatment can be the difference between life and death for many people struggling with substance use disorders. Unfortunately, less than 10% of people with addictions have access to treatment. We must do more to expand access, because counseling and behavioral therapy, coupled with medication-assisted treatment, is the most effective way for most people to address opioid dependency.

Finally, we need better education around the nature of addiction, because it is a disease – not a decision. Miseducation perpetuates stigma, and stigma is a common barrier to treatment, not just for communities but for those who are struggling with addiction and dependency. In order to save lives, we must approach addiction the same way we approach all chronic illnesses, and that means expanding access to proven treatment options.

The National Safety Council has data, tools and other resources to fight overdoses and encourages community members to review this information so they can learn more about this topic. A need for urgent action exists, including expanded access to treatment. If you have any questions or would like more information, please contact Tara Leystra at tara.leystra@nsc.org.

MODE OF PARTICIPATION

Members of the public wishing to participate in the hearing are encouraged to sign-up in advance no later than the Sunday before the meeting they intend to speak at. Individuals who pre-register will be given priority to ask questions and/or provide public comment at the appropriate time.

What is the difference between public questions and public comment?

During Public Questions, individuals are provided an opportunity to ask a question about direct testimony that was provided by a witness or about documents submitted. Individuals should be prepared to reference a specific portion of the transcript by page number and/or a specific document page number at the beginning of the question. A link to all of the submitted documents can be found below. Questions will be directed to the Plan Commission Chairperson who will determine whether the question is relevant to the Plan Commission's deliberations. If so, the Chairperson will instruct the witness or petitioner to answer the question.

During Public Comment, the public is free to express opinions or make general statements to the Plan Commission regarding witness statements, documents or the matter in general.

Any person asking a question or providing a comment must do so under oath and may be subject to cross-examination by the petitioner or interested parties.

- In-writing
- In-person

Will you be referencing any documents that have not been submitted into the record?*

Any documents used during questioning not already submitted into the record, must be provided to Village staff no later than 3 days before the Plan Commission meeting.

- Yes
- No

Please write your comments here.*

Town of Itasca cannot financially sustain operating a big facility such as the proposed Haymarket Itasca. Haymarket cannot make guarantees that they will financially support this facility on ongoing basis and the burden will ultimately fall on us, the Itasca residents. Not once did Haymarket come forward with a different proposal (example: smaller facility) after hearing concerns from Itasca residents, School, Fire and/or Police districts over the last 2 years. Haymarket does not care about Itasca residents and that is why I recommend the board to vote NO to Haymarket Itasca.

If you are unable to attend in-person, you may submit a written comment, which will be read into the record by staff at the appropriate point in the public hearing. You may type in your comment above or upload a document using the button below. Written comments must be submitted by the Sunday prior to the meeting.

I have been living in Itasca since 1980 and I believe that this hay market will do more harm than help for us the Itasca residents. Our emergency services will be jeopardized as the hay market's patients may be in need and use the little equipment we have. I also believe that the location where it currently wants to open is not ideal for the residents safety. There is a lot of facilities being use by children within walking distance from the potential site. Such as the library, the pool, the music classes, the gymnastics center and not too far is the park district. This will put our community children in danger. Let's keep our small village safe.

If you are unable to attend in-person, you may submit a written comment, which will be read into the record by staff at the appropriate point in the public hearing. While Dr. Lustig has been portraying Itasca residents as cold-hearted people who are denying help to the vulnerable ones, he knows Haymarket is making a flagrant mistake that could hurt its patients as much as Itasca residents. Itasca cannot handle a facility as huge as the one proposed for Itasca and the reasons have been already explained extensively. Dr. Lustig overlooked the facts and just promised to be a good neighbor. Meanwhile, he accused the village of Itasca of stigma instead of addressing any concerns. He failed to answer some questions. He also sued the village when he was not granted what he wanted. That is not what good neighbors do. Dr. Lustig claims that he wants to save lives and reiterates how bad the opioid crisis is getting. It is, and that is why Dr. Lustig should have displayed more transparency, fewer contradictions, and better planning. Instead, he spent millions of dollars on a property he might never be able to use. Saving lives takes more than what Dr. Lustig is doing. Substance abuse victims need everyone's support. They are our relatives, our neighbors, our coworkers. We should not look the other way but we also should not promise what we cannot deliver, especially when it jeopardizes their life. This is why I think the Board should vote against Haymarket in Itasca. Thank you!

My name is Mike Murray, I've lived and raised a family in Roselle for over 30 years. On an almost daily basis I travel past the Holiday Inn. Unfortunately, I'm not able to attend the meeting tonight. However I want to make a statement that I hope the board will take into consideration during their deliberation.

You've heard lots of facts and figures and seemingly endless hours of expert testimony. Expert testimony is important and necessary, but, of course, predicting the future and the consequences of our decisions is uncertain, but we do certainly know the consequences of lack of available services and their effect on both the community and those suffering from the disease of addiction.

When my children were younger, we visited Itasca on many Christmas Eves. The inspiring display of luminaria in Itasca allowed our family to talk about the hope of Christmas and the hope that even the darkest days give way. The luminaria reflected to our family the community spirit and the hope of new beginnings that I believe is the heart of Itasca.

Haymarket and those working to cure the disease of addiction represent the same hope of the luminaria to the addicted.

Uniquely Haymarket's intent is to provide treatment to all who ask.

Itasca by welcoming Haymarket affirms its roots and affirms it has the biggest of hearts. Haymarket rather than being feared gives Itasca the opportunity to demonstrate leadership and to reach out and confront rather than run from the disease of addiction. My heart tells me that with soul searching Itasca will do the right thing.

As longtime residents of Itasca, we feel that the wishes of the residents must be followed in the use of our limited recourses. We do not think that Itasca has the infrastructure to accommodate such a large facility as Haymarket. We are also concerned for the people in need of the services of Haymarket, and feel that their welfare would be better served in a larger community with better supporting services. The current proposal does not seem to fit in the community and we understand that the property might be expanded further without input or oversight from the village to add on to the building. Please vote no to this proposal.

Say NO to Haymarket!

PC 19-014 - 860 W IRVING PARK - HAYMARKET
 SUBMITTED INTO THE RECORD AUGUST 11, 2021

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to **children-based** businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyne's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to **REJECT** the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in **OPPOSITION** of Haymarket.

10

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to children-based businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruy's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

Say NO to Haymarket!

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to **children-based** businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyin's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

 SUBMITTED INTO THE RECORD AUGUST 11, 2021

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to children-based businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruy's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to **children-based** businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruy'n's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to children-based businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to **REJECT** the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in **OPPOSITION** of Haymarket.

- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to children-based businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyin's June 21st, 2019 statement)

Say NO to Haymarket!

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to **children-based** businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to **REJECT** the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in **OPPOSITION** of Haymarket.

Say NO to Haymarket!

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to **children-based** businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruy'n's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

Say NO to Haymarket!

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to **children-based** businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

Say NO to Haymarket!

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to children-based businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

Say NO to Haymarket!

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to **children-based** businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruy's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

Say NO to Haymarket!

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to **children-based** businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to **REJECT** the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in **OPPOSITION** of Haymarket.

- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruyn's June 21st, 2019 statement)
- Will be within a 1/2 mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.

Say NO to Haymarket!

Facts about Haymarket:

- An addiction and mental health treatment center looking to add a 200-bed facility to the Holiday Inn Hotel located at 860 W. Irving Park Road, Itasca, IL.
- Provides addiction and mental-health treatment, including "alternative to incarceration" programs, (www.hcenter.org, 2019)
- Will be within close proximity to children-based businesses and schools (Google Maps, 2019)
- Based on last year's 911 calls, Haymarket would put undue stress on Itasca Police, Fire and EMS.
- There were 863 emergency responses to Haymarket's Central Chicago location last year alone (FOIA records on 932 W. Washington & 120 N Sangamon St. in Chicago, retrieved July 2019)
- Itasca would lose approximately \$250,000 annually in revenue generated by the current Holiday Inn, a non-profit, (Mayor Pruy'n's June 21st, 2019 statement)
- Will be within a ½ mile of 5 businesses selling/ serving alcohol and 3 video-gaming facilities (Google Maps, 2019)
- Research shows a property value loss of up to 17% on homes near opiate and methadone treatment centers (http://www.josre.org/wp-content/uploads/2014/12/9830-63_92.pdf)

We, the undersigned, call for the Village of Itasca to REJECT the rezoning and proposed opening of Haymarket, a 200-bed Drug and Addiction Rehabilitation Center. This business will provide financial burden to our local residents. Itasca, IL has the 4th smallest population in DuPage County, and does not have the infrastructure and financial means to support this establishment. Please consider our petition in OPPOSITION of Haymarket.
